#### Previous General Meeting

**Monday, April 28, 2014**

Our own member, **Renate Wells**, presented her trip to the Mosaicultures Internationales Montreal 2013 from the Montreal Botanical Gardens. Her husband Chris assisted. Renate shared fabulous photos of the gardens displaying meticulously trimmed plants. These structures took the form of birds, fish, people, buildings, etc. and were produced from plants, apples, and organic materials, to name a few. Renate had a well prepared script to ensure she included the important details. We all thoroughly enjoyed her presentation. All 35 participants at the meeting greatly appreciated the time she and her husband spent to prepare the presentation.
